Initiative Measure 437

A vote "FOR" will enact a statute that makes penalties inapplicable under state and local law for the use, possession, and acquisition of an allowable amount (up to five ounces) of cannabis for medical purposes by a qualified patient with a written recommendation from a health care practitioner, and for a caregiver to assist a qualified patient with these activities.

A vote "AGAINST" means such a statute will not be enacted.

Shall a statute be enacted that makes penalties inapplicable under state and local law for the use, possession, and acquisition of an allowable amount (up to five ounces) of cannabis for medical purposes by a qualified patient with a written recommendation from a health care practitioner, and for a caregiver to assist a qualified patient with these activities?

Initiative Measure 439

A vote "FOR" will amend the Nebraska Constitution to provide that all persons shall have a fundamental right to abortion until fetal viability, or when needed to protect the life or health of the pregnant patient, without interference from the state or its political subdivisions. Fetal viability is defined as the point in pregnancy when, in the professional judgment of the patient's treating health care practitioner, there is a significant likelihood of the fetus' sustained survival outside the uterus without the application of extraordinary medical measures.

A vote "AGAINST" will not amend the Nebraska Constitution in such manner.

Shall the Nebraska Constitution be amended to include a new section which provides: "All persons shall have a fundamental right to abortion until fetal viability, or when needed to protect the life or health of the pregnant patient, without interference from the state or its political subdivisions. Fetal viability means the point in pregnancy when, in the professional judgment of the patient's treating health care practitioner, there is a significant likelihood of the fetus' sustained survival outside the uterus without the application of extraordinary medical measures."
